V-Gard® Cooling Liners

Technical Datasheet

Product Specifications

OUTER MATERIAL	Nylon
INNER MATERIAL	Water Repellent Nylon
HOOK AND LOOP	Black Poly-Cotton
WEIGHT	CROWN COOLER: 18 g CROWN COOLER WITH NECK SHADE: 55g
PACKAGING	Individual unit plastic bag, Polybag of 20 pcs
APPROVALS	<ul style="list-style-type: none">Both liners have been tested in combination with V-Gard helmets in our laboratory according to EN 397 and ANSI Z89.1.Liners are listed as Accessories in V-Gard helmets certificateUPF 50+ rated (Ultraviolet Protection Factor)Self-declaration (PPE Category 1) according to PPE regulation 2016/425 <p>OEKO-TEX® CONFIDENCE IN TEXTILES STANDARD 100</p>

How to Use

1. Simply submerge the product in water for 1 minute allowing the HyperKewl™ PLUS fabric to absorb the water.

2. Gently squeeze out the excess water, wipe dry and wear.

3. Hook and loop easily attaches to textile headband straps of V-Gard helmet suspensions.

How it Works

A water management system created from the HyperKewl™ PLUS fabric absorbs and releases water within the multi-layered material. Natural evaporation of the water absorbs heat, cooling the wearer.

Before first use

Remove all packaging and simply follow activation procedure.

For washing

Hand or machine wash at 40°C max on a gentle cycle with mild detergent.

Avoid bleach and fabric softeners.

No tumble drying.

Our Mission

MSA's mission is to see to it that men and women may work in safety and that they, their families, and their communities may live in health throughout the world.
