

Securope NEO lifeline between two walls or on ceiling

Ligne de vie Securope NEO entre deux murs ou au plafond

Línea de vida Securope NEO entre dos muros o a techo

Securope NEO Absturzsicherung zwischen zwei Wänden oder Überkopf

Code N° LDV054 / LDV139

FALLPROTEC

November 2019

Description

When a Securope lifeline is mounted between walls, specific end anchors are used for fastening on the walls.

Advantages

- Undeformable end anchor
- Can be fixed on Fallprotec brackets or directly on steel beam or concrete
- Reduced fall factor in overhead configuration
- Also available for ATEX environments

Technical specifications

Delivered with an installer and user manual

Material: Stainless steel

Compliant with EN 795:2012 Type C
MADE IN EU

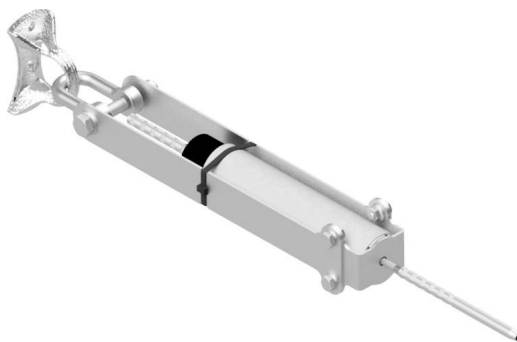

× 4
